Face Masks (Effective January 1, 2005)

In relationship to the new rule on the Batting Helmet and Face Mask for JO please be aware of the following:

- 1) No Helmets or Masks will be grandfathered.
- 2) Both the Helmet and the Face mask has to have the NOCSAE seal to be approved.
- 3) A one piece helmet and mask, MOLDED AS ONE PIECE, needs only one NOCSAE approval seal. As of right now Kelly from the National office is unaware of any manufacturer that makes this type of batting helmet. He is checking into who might have one soon and what if any testing by NOCSAE will be done.
- 4) There is no restriction on which face mask is on which helmet as long as it is securely fastened, properly in the umpire's opinion, and both the mask and helmet have the NOCSAE seal.
